

12th October 2022

Dear Parent/Carers

We have a vacancy on the Governing Board of our school for a Parent Governor. It is so important that we have the right people helping us to make the right choices about our school, so that we can be sure to have the biggest impact on the lives of every single student.

Governors are able to be involved with the school, making sure that students have opportunities to learn all that they need to in order to be productive members of the community as they grow older - including life skills, money management and gaining employment skills.

Governors can also be part of financial planning and checking that the money allocated to each student is spent on them, and that the school gets good value for money from every activity.

If you are interested in becoming a governor of our school we can promise you:

- * A full induction and training so that you can understand the role right from the start
- * A great team to work with - we have a very supportive Governing Board who care about every student
- * A significant role in shaping the future of the school
- * A committed team of staff to work with, who are all passionate about ensuring that every student has the best chances of achieving their potential

If you are interested in putting your name forward as a future governor of Newbridge School, please complete the attached nomination form or contact emma.russell@services4schools.org.uk who is clerk to the governing body, and we will get in touch with you to discuss this exciting opportunity further.

Yours sincerely

Ian Enwright
Executive Head Teacher
